About Us

ExGEO, LLC is the premier emergency services company specializing in providing advanced-level medical care in austere and inhospitable environments. We take pride in our pragmatic and thorough approach to problem solving in the remote medical field. ExGEO, along with Paladin Emergency Service Consulting has developed systems to make access to critical care resources simpler and with considerably less waste. With careful consideration of vehicles, equipment, medications and protocols, ExGEO is there when you need us.

Core Competencies

ExGEO:

- Considerable experience in the offshore and austere medicine communities
- Nearly a decade building expeditionary vehicles for safe off-road use
- Aggressive medical protocols tailored to the austere environment
- 20 years experience in combat medicine, training, research and EMS

Paladin Medical Director:

- Board Certified in Emergency Medicine and Emergency Medical Services (EMS)
- On-line medical control provided by Board Certified EMS Physicians
- Extensive national speaking in austere and critical care medicine
- Leading physician in field medical innovation with many first to industry concepts and protocols
- Published and widely sought national speaker on field medicine and innovations in EMS
- 25 Years experience in EMS

Differentiators

With extensive and diverse experience in multiple facets of emergency medicine and crew sustainment in extremely remote environments, ExGEO brings an unprecedented level of care to your incident. Boasting the only blood transfusion program for a ground agency in the State of Utah, and likely the fireground, we have the equipment, experience, and passion necessary to bring meaningful care to the men and women working hard to protect life and property.
